

2

Julian Rodriguez did not have his laptop in class so the left photo was from his phone and the right photo was from his laptop after class.

### JamBoard Etiquette

- Feel free to draw on a frame when instructed
- When given an assigned frame, work on that frame only
- When sharing a frame, leave room for each person to work
- Do not erase someone else's work

The image is a composite of two screenshots. The top portion shows a Mac desktop with a Google Chrome browser window open. The search bar contains the text "how to take a screenshot on a mac". The search results show the top result from Apple Support, titled "Take a screenshot on your Mac - Apple Support". The text of the result explains that to take a screenshot, you press and hold the Shift, Command, and 3 keys together. Below the search results, there is a Processing application window. The Processing window has a title bar that says "Processing" and a menu bar with "File", "Edit", "View", "Window", and "Help". The main canvas of the Processing window is dark and contains a faint, stylized drawing of a person's head and shoulders. The desktop background is a dark, textured image. On the right side of the desktop, there are several icons: a blue folder icon labeled "Relocated Items", a "Screen Shot 2022-02-23 10:10 AM" icon, a "Screen Shot 2022-02-23 16 PM" icon, a "Scanned Documents.pdf" icon, and a "Processing" icon. The bottom of the image shows the Mac's dock with various application icons including Finder, Safari, Google Chrome, Mail, Messages, Photos, Calendar, Reminders, Notes, TV, Music, Podcasts, News, App Store, System Settings, and several utility icons.

A large, thick, black handwritten number '4' is centered on the page. The stroke is bold and slightly irregular, characteristic of a hand-drawn digit. The background is a light gray grid. At the bottom of the image, a portion of a web browser window is visible, showing the address bar with the URL 'https://www.brics-sim.com/' and several open tabs.

The screenshot displays the Blackboard LMS homepage. At the top, there's a navigation bar with "My Institution" and "Courses". Below it, a sidebar on the left contains "Faculty Discover" and "Student Launch Feltt Discover". The main content area is divided into three columns: "My Announcements" (listing recent announcements like "Welcome to Chemistry 111"), "My Courses" (listing courses such as "CHEM-111G-01 General Chemistry I Fall 2022"), and a central section for "Feltt Discover" which includes a "Faculty Discover and Select Course Materials" button and a "Launch Feltt Discover" link.
